

Wallet Installation Manual

Download Wallet Windows

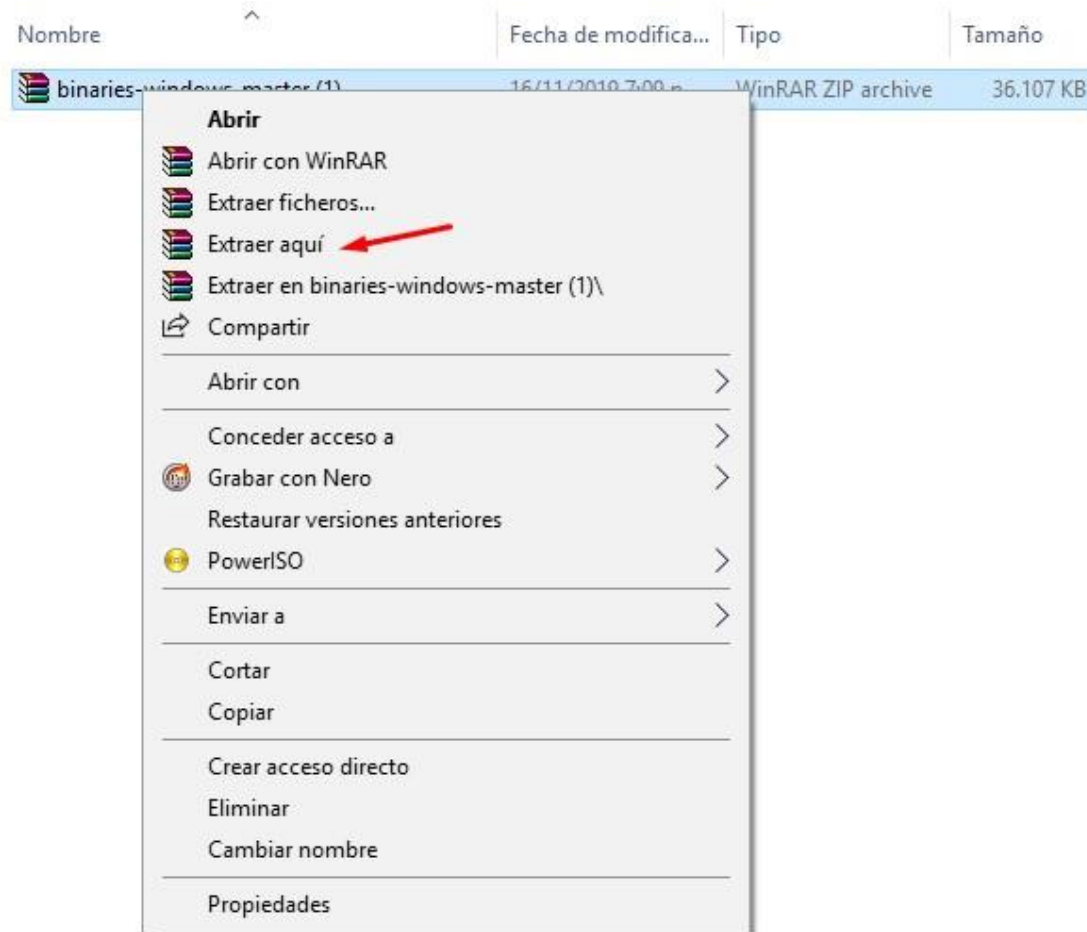

Go to the link: <https://allforonebusiness.org/descarga-wallet/>

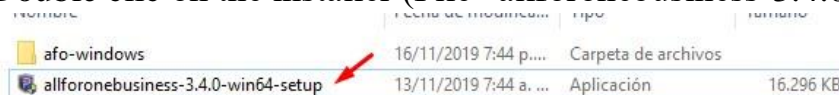

Download the file use right clic and select show in folder

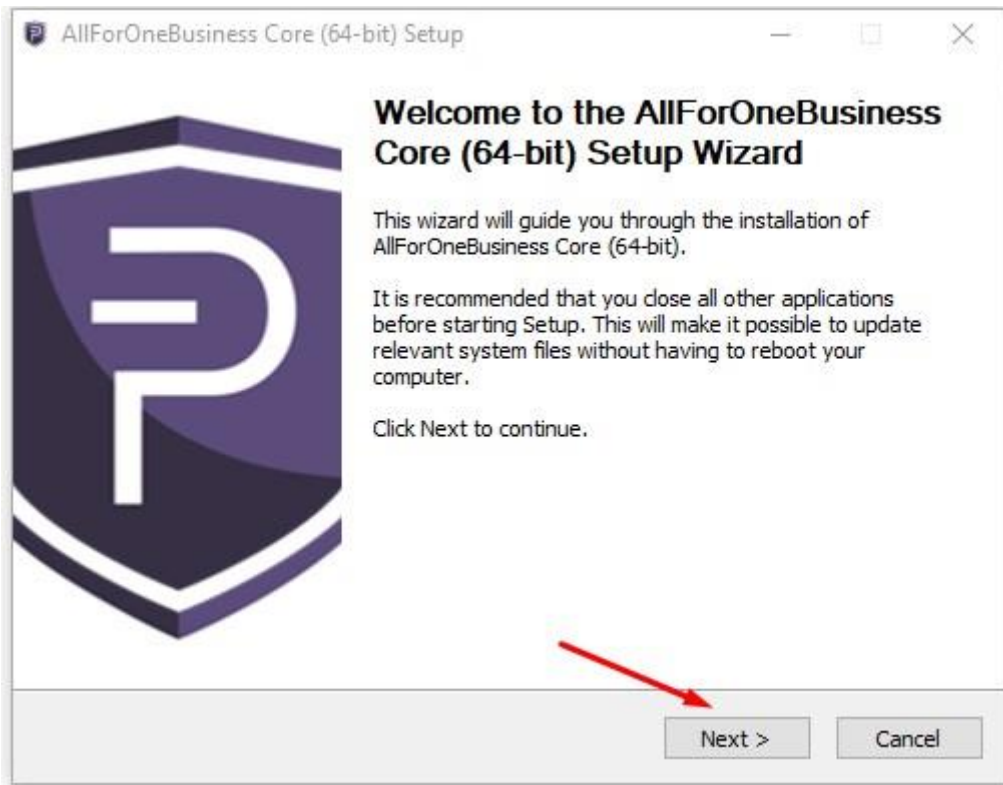

We extract the contents of the file

Double clic on the installer (File “allforonebusiness-3.4.0-win64-setup”)

Click Next and continue with the installation until finished

Then we visit the link: <https://github.com/allforonebusiness/binaries-windows>

We copy the command: `addnode 108.61.242.8:11888 onetry`

AFO Billetera

El archivo `allforonebusiness-3.4.0-win64-setup.exe` es un instalador para Windows.

Simplemente siga los pasos del instalador.

Si no desea utilizar el instalador, puede descargar los siguientes archivos:

`allforonebusiness-cli.exe`

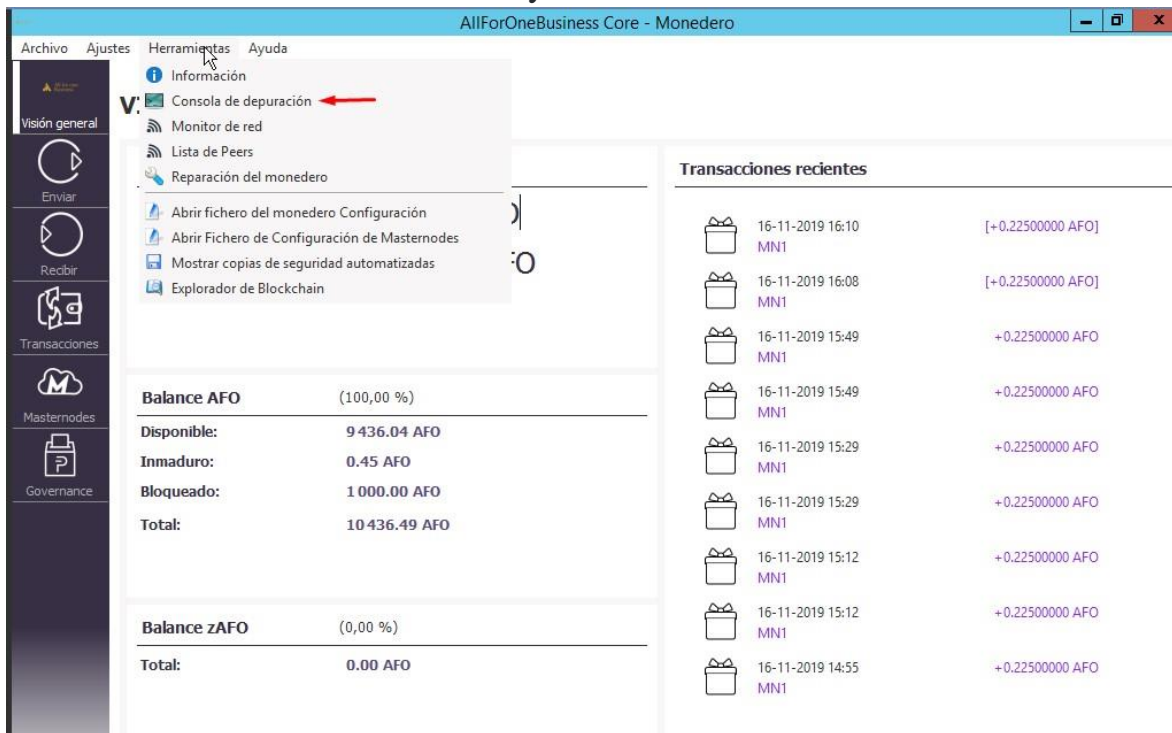

`allforonebusiness-qt.exe`

`allforonebusinessd.exe`

Estos 3 archivos deben ir dentro de la misma carpeta. para ejecutar la billetera debe usar el archivo `allforonebusiness-qt.exe`

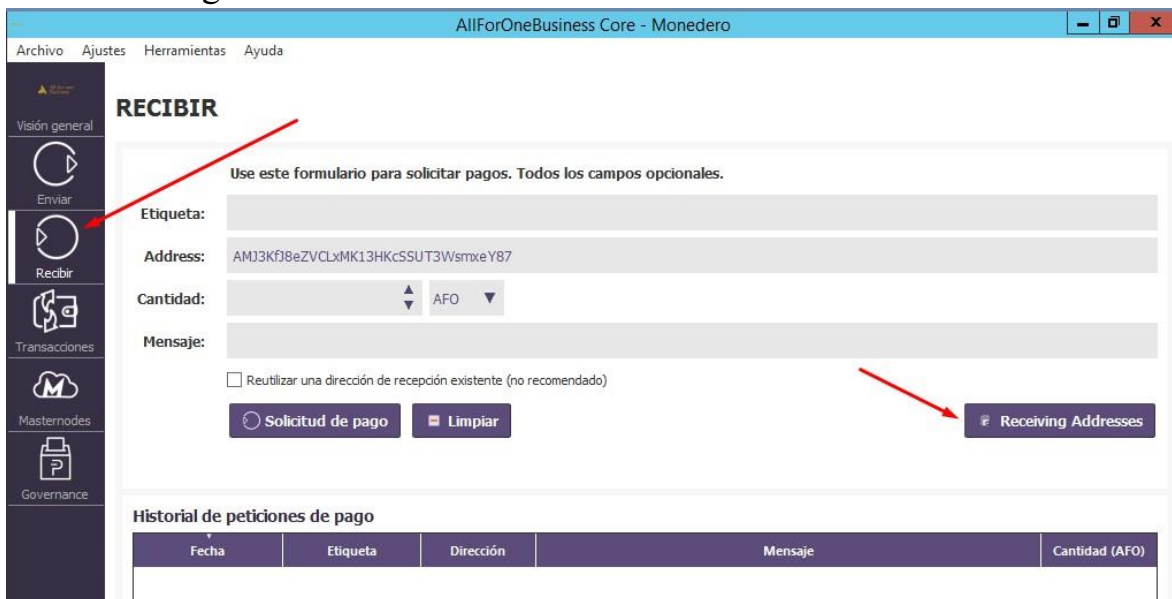

luego de instalar debe abrir la consola de la wallet y colocar el siguiente comando: `addnode 108.61.242.8:11888 onetry`

Let's go to the Wallet - Tools - clic on Console and paste the command:
addnode 108.61.242.8:11888 onetry

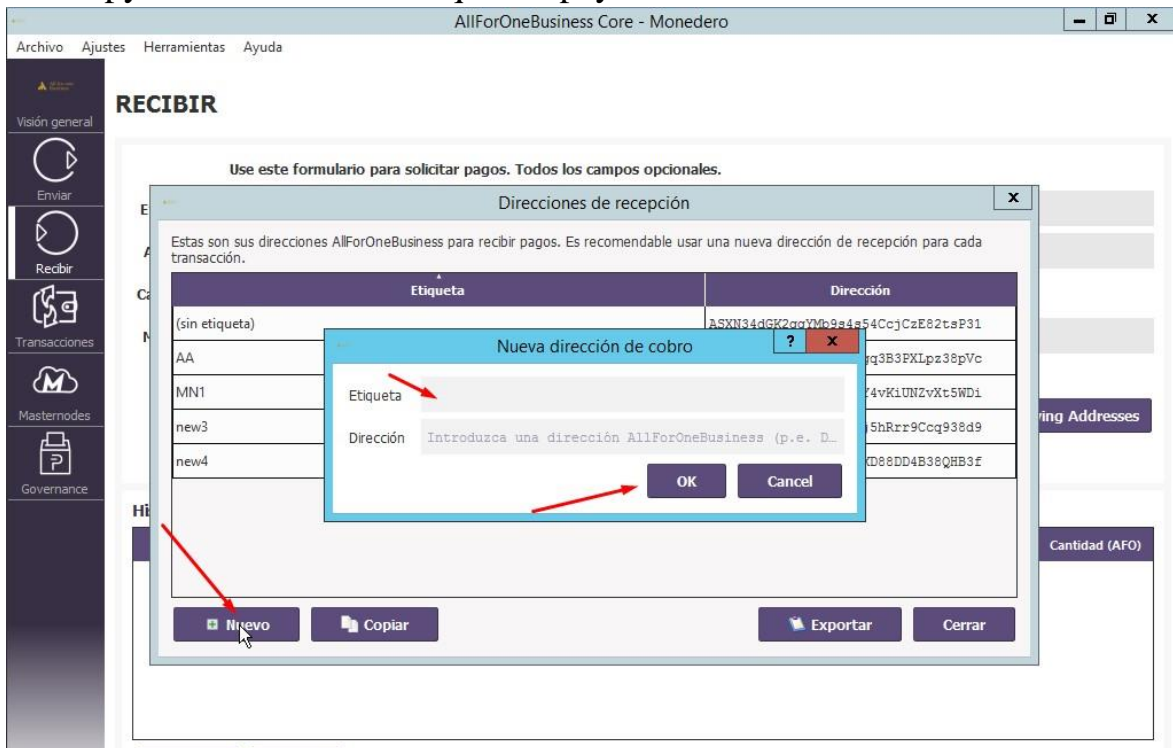

Ready in seconds the wallet should start synchronizing.

Once the synchronization is finished, we go to the “Receive” button and clic on “Receiving Addresses”.

We request a new wallet Clic again (we can leave the label blank) Clic OK and copy the new wallet to request a payment.

You can use that wallet forever or request a new one whenever you wish to receive funds.
